

The Book of Q

A historical record of the greatest Military Intelligence operation of all time

Posts #1 through #4966

Forward

This e-book presents a historical collection of all the posts made by the group known as "Q," spanning from their first post on October 28, 2017, to their latest on November 27, 2022. While it's almost certain—especially in light of post #4965—that they will post again, this book remains current as of now.

Eventually, the websites that host the Q drops for the world to read will go offline. When that time comes, it's important for those of us who want to help preserve history—for our children and our children's children—to have offline copies that we can reflect on and share. As Q stated in post #777: *"Archive everything offline."*

What each person believes about the Q operation and the thousands of drops it produced is up to them individually. As Q has stated numerous times: *"Think for yourself."*

However, one thing is certain: there are far too many coincidences, date deltas, and confirmations by President Donald J. Trump (Q+)—often referred to as “Q proofs”—to dismiss the entire operation outright.

For those of us who experienced the drops in real time and became targets of life-altering attacks—arguably by some of the most advanced intelligence adversaries in the world—there is no convincing us of anything other than the legitimacy of the Q operation. When the weight of the intelligence community comes down on you—along with their farm-controlled media and corporate operatives—and you witness entire networks taken offline multiple times, along with the near-total cancellation of everything in your life, all supposedly over a "LARP," there's no going back.

In most cases, those who reject the legitimacy of the Q operation have never read even a small portion of the drops themselves. Instead, they simply parrot a narrative they've been fed. As Q once asked: *"How many coincidences before mathematically impossible?"* For those willing to dig deeper, there is no shortage of Q-proof videos on Rumble, along with extensive documentation available across other corners of the internet.

Nonetheless, all of the drops to date are included in this book—for those who lived through them to reminisce, for others to study, and for all to reflect upon.

About the Operator Behind This Book

ToeCramp is the developer and operator of the website "QAlerts.app" as well as its many mirror domains. He is also the creator of the "Q Alerts" smartphone apps, which were removed from both the Apple App Store and Google Play Store. Notably, these apps had reached the #1 trending spot on both platforms before being taken down.

At this stage of the information war—although the time when it will be safe for Anons to step out of the shadows of anonymity is on the horizon—ToeCramp continues to operate anonymously, maintaining purposeful and strategic disinformation surrounding his true identity.

A radio communications expression that means "loud and clear". One of the fives represents the S units of reception strength. The other five is a rating of the signal clarity. Five by five is a good, clear signal. Five by five by extension has come to mean "I understand you perfectly" in situations other than radio communication. It is sometimes used as slang term to mean "everything is good".

MSDNC: "peaceful" "summer of love"

Reality [seen on social media]: murder, violence, destruction, anarchy, lawlessness...

People are awake to the truth.

Seeing is believing.

The age of social media killed their ability to fully control.

You can't censor the world.

You are the majority.

Have faith in yourself.

Do not let the media control you [incite division and hatred for one another by use of propaganda and fear mongering [dogma - a point of view or tenet put forth as authoritative without adequate grounds]].

How is it possible select [D] governors thought it was 'safe' to push COVID-19 positive elderly patients back into nursing homes [hot zones]?

<https://medicine.yale.edu/news/medicineat Yale/why-flu-is-deadly-among-the-elderly/>

"Each year, 90 percent of deaths worldwide related to influenza-A virus (IAV) strike men and women aged 65 and older."

If the flu [influenza] is more deadly among the elderly [known] HOW IS IT POSSIBLE SELECT [D] GOVERNORS THOUGHT IT WAS 'SAFE' TO PUSH COVID-19 POSITIVE ELDERLY PATIENTS BACK INTO NURSING HOMES [HOT ZONES]?

WHY WOULD THIS BE DIRECTED IF HOSPITALS [+US NAVY MEDICAL SHIPS [NYC-CA] +ERECTED CARE FACILITIES] HAD MORE THAN 70% CAPACITY?

Someone can be accused of third-degree murder if they unintentionally cause someone else's death while committing a dangerous act.

Negligent?

You have been selected to help serve your Country.

Never retreat from the battlefield [Twitter, FB, etc.].

Use other platforms as a form of centralized command and control.

Organize and connect [bridge through linking].

Source meme(s) material from battlefield and/or garage [highlight & share][take & drop]

Mission 1: Dispute [reject] propaganda push through posting of research and facts

Mission 2: Support role of other digital soldiers [one falls another stands (rises)]

Mission 3: Guide [awaken] others through use of facts [DECLAS 1-99 material and other relevant facts] and memes [decouple MSDNC control of info stream] _ask 'counter' questions to initiate 'thought' vs repeat [echo] of MSDNC propaganda

Mission 4: Learn use of camouflage [digitally] _primary account suspended-terminated _use of secondary

Mission 5: Identify strengths / weaknesses [personal and designated target(s)] re: Twitter & FB [+other] example re: meme(s) failure to read through use of ALGO [think Tron (MCP_master control program)] _dependence on person-to-person capture [slow
