

The Book of Q

***A historical record of the greatest
Military Intelligence operation of all time***

Posts #1 through #4966

Forward

This book presents a historical collection of all the posts made by the group known as "Q," spanning from their first post on October 28, 2017, to their latest on November 27, 2022. While it's almost certain—especially in light of post #4965—that they will post again, this book remains current as of now.

Eventually, the websites that host the Q drops for the world to read will go offline. When that time comes, it's important for those of us who want to help preserve history—for our children and our children's children—to have offline copies that we can reflect on and share. As Q stated in post #777: *"Archive everything offline."*

What each person believes about the Q operation and the thousands of drops it produced is up to them individually. As Q has stated numerous times: *"Think for yourself."*

However, one thing is certain: there are far too many coincidences, date deltas, and confirmations by President Donald J. Trump (Q+)—often referred to as “Q proofs”—to dismiss the entire operation outright.

For those of us who experienced the drops in real time and became targets of life-altering attacks—arguably by some of the most advanced intelligence adversaries in the world—there is no convincing us of anything other than the legitimacy of the Q operation. When the weight of the intelligence community comes down on you—along with their farm-controlled media and corporate operatives—and you witness entire networks taken offline multiple times, along with the near-total cancellation of everything in your life, all supposedly over a “LARP,” there’s no going back.

In most cases, those who reject the legitimacy of the Q operation have never read even a small portion of the drops themselves. Instead, they simply parrot a narrative they’ve been fed. As Q once asked: *"How many coincidences before mathematically impossible?"* For those willing to dig deeper, there is no shortage of Q-proof videos on Rumble, along with extensive documentation available across other corners of the internet.

Nonetheless, all of the drops to date are included in this book—for those who lived through them to reminisce, for others to study, and for all to reflect upon.

About the Operator Behind This Book

ToeCramp is the developer and operator of the website "QAlerts.app" as well as its many mirror domains. He is also the creator of the "Q Alerts" smartphone apps, which were removed from both the Apple App Store and Google Play Store. Notably, these apps had reached the #1 trending spot on both platforms before being taken down.

At this stage of the information war—although the time when it will be safe for Anons to step out of the shadows of anonymity is on the horizon—ToeCramp continues to operate anonymously, maintaining purposeful and strategic disinformation surrounding his true identity.

Abbreviations

Below is a list of abbreviations commonly used by Q, as well as various Anons in the posts. When new abbreviations appear, the community of Anons generally reaches a consensus over time on their meaning—though not always unanimously.

While these definitions are not guaranteed to be accurate, they represent the most widely accepted interpretations within the community.

A radio communications expression that means "loud and clear". One of the fives represents the S units of reception strength. The other five is a rating of the signal clarity. Five by five is a good, clear signal. Five by five by extension has come to mean "I understand you perfectly" in situations other than radio communication. It is sometimes used as slang term to mean "everything is good".

What happens if CIA was actively involved in domestic targeting and surv of US person(s) [direct _indirect]?

How does one agency attach itself to another?

<https://www.cia.gov/news-information/featured-story-archive/2018-featured-story-archive/top-10-cia-myths.html>

"the CIA is restricted in the collection of intelligence information directed against US citizens. Collection is allowed only for an authorized intelligence purpose; for example, if there is a reason to believe that an individual is involved in espionage or international terrorist activities. The CIA's procedures require senior approval for any such collection that is allowed, and, depending on the collection technique employed, the sanction of the Director of National Intelligence and Attorney General may be required."

House Intelligence Committee to Hold Virtual Open Hearing on Misinformation and Conspiracy Theories Online

Washington, DC – On Thursday, October 15, 2020 at 1:30 pm ET, the House Permanent Select Committee on Intelligence (HPSCI) will convene a virtual unclassified hearing entitled, “Misinformation, Conspiracy Theories, and ‘Infodemics’: Stopping the Spread Online.”

Conspiracy theories and misinformation narratives that prey on individuals’ fears and uncertainties continue to mar the online landscape. Against the backdrop of a global pandemic, an economy in turmoil, and a tumultuous presidential campaign, there is ample terrain for malicious actors at home or malign foreign operatives and governments abroad to exploit such tensions by stoking chaos and dangerous, even life-threatening, untruths. Recent trends in the spread and reach of misleading or unfounded claims online have the unsettling potential to come to a head after Election Day – particularly if the certified outcome is unknown or contested in the ensuing days and weeks.

Although the seeds for many conspiracies and misinformation narratives – ranging from baseless QAnon posts, to dangerous coronavirus skepticism and denialism, to falsehoods about mail-in ballots – are often homegrown and amplified by American voices, the propaganda and covert influence machines of foreign adversaries have nonetheless repeated and amplified them in the service of strategic interests.

In the hearing, the Committee will examine:

- the intersection of and divergences between different online conspiracy and misinformation narratives;
- the role of social media platforms in the proliferation and deceleration of such content;
- how foreign actors are taking advantage of misinformation circulating U.S. online communities;
- steps that the US government and private sector need to take in response; and
- the implications for our social and political discourse beyond Election Day 2020.

WHO: Dr. Joan Donovan, Research Director, Shorenstein Center on Media, Politics, and Public Policy, Harvard Kennedy School

Ms. Nina Jankowicz, Disinformation Fellow, the Wilson Center

Ms. Cindy Otis, Vice President, Alethea Group

Ms. Melanie Smith, Head of Analysis, Graphika Inc.
